

## Company Introduction

**WarOnCancer is a health tech company on a mission to improve mental health for everyone affected by cancer. The WarOnCancer App is a social media app for patients, survivors and loved ones focused on content creation and storytelling as a driver of engagement.**

**By uniting on a global platform, we are working towards building an infrastructure where our members can contribute their data to the larger cancer ecosystem, and hence play an essential part in accelerating healthcare and improving research.**

## Job Description

We are looking for a talented UI Designer to create amazing user experiences. The ideal candidate should have an eye for clean and artful design, possess superior UI skills and be able to translate high-level requirements into interaction flows and artifacts, and transform them into beautiful, intuitive, and functional user interfaces.

## Responsibilities

- Collaborate with product management and engineering to define and implement innovative solutions for the product direction, visuals and experience
- Execute all visual design stages from concept to final hand-off to engineering
- Conceptualize original ideas that bring simplicity and user friendliness to complex design roadblocks
- Create wireframes, storyboards, user flows, process flows and site maps to effectively communicate interaction and design ideas
- Present and defend designs and key milestone deliverables to peers and executive level stakeholders
- Conduct user research and evaluate user feedback
- Establish and promote design guidelines, best practices and standards

## Requirements

- Proven UI experience
- Demonstrable UI design skills with a strong portfolio
- UX Design experience is a bonus
- Solid experience in creating wireframes, storyboards, user flows, process flows and site maps
- Proficiency in Photoshop, Illustrator, OmniGraffle, or other visual design and wire-framing tools
- Proficiency in HTML, CSS, and JavaScript for rapid prototyping.
- Excellent visual design skills with sensitivity to user-system interaction
- Ability to present your designs and sell your solutions to various stakeholders.
- Ability to solve problems creatively and effectively
- Up-to-date with the latest UI trends, techniques, and technologies
- BS/MS in Human-Computer Interaction, Interaction Design, or related
- Experience working in an Agile/Scrum development process
- Resourceful, adaptable and persistent. This is a startup. There are huge and endless possibilities and we already have partnerships in place with e.g. Microsoft and Bing. However, you will need to think lean and enjoy the true startup mentality, dig in and get your hands dirty in order to reshape the future of healthcare. Only the passionate need apply!
